

30th December 2020

To Whom It May Concern

This is to certify that Mr. I B M Madawa S Irugal Bandara was an employee of Prime Structures Engineering Lanka (Pvt) Ltd from 19th November 2018 as a QA Engineer (Quality). Based on his performance he has promoted for the position of a QA / QC Engineer on 19th August 2020 and till 02nd December 2020 he has worked with our company.

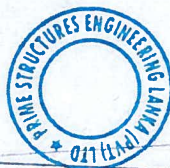

He was responsible for,

- 1) Responsible for QA/QC documents of the project including certificates, calibration, test results, inspection requests, non-compliance reports and site instruction/observations, permanent materials delivered, and other important QA/QC documents.
- 2) Involved with the Pre-Site Preparation works (Preliminary Works)
- 3) Discuss with the Main Contractor and sub-contractors parties and made the relevant site arrangements in order to start the site activities of the roof package..
- 4) Handle Subcontractor's party, arrange necessary testing (MPT Testing for Welding, CSM-H Marine Coatings, Hot-Dipped Galvanizing...etc) in order to achieve construction progress according to the plan.
- 5) Prepared Material Approval request documents (MAR) Material Submissions (MSB) for the Façade works in order to get the approval of project consultants prior to use construction materials at the site (Residential Buildings of Waterfront Integrated Project)
- 6) Review project specification & propose suitable material according to the project requirements.
- 7) Discuss & deal with the local and overseas suppliers regarding the material related issue & technical matters in order to solve the site related matters
- 8) Prepared the weekly updates related to the materials (new /existing) for the main contractor and consultants' review.
- 9) Attend meetings with main contractors and consultants to discuss material related issues weekly.
- 10) Minimize costs and increase the productivity based on the project specification.
- 11) Worked on shop drawings for the material related issue and helped Design Manager , QS Manger and site staff regarding the construction project related issues.
- 12) Get the relevant technical advice from the suppliers for site related matters and arrange the necessary arrangements in order to reduce the material related issues at the site.

Mr. Madawa was a team oriented individual, who developed good working relationships with his supervisors and colleagues. As a Planning Engineer he was responsible for his duties and during his tenure we found his hardworking and sincere

.We wish him all the best for his future endeavours.
